

January 11, 2019

Dear Parents and Guardians of **Bus Students**:

In order to continue to improve safety and efficiency for all students at the school by modifying traffic flows, we will be making an adjustment to the location of the bus pick up and drop off at the school site. As a school community, we wanted to maintain transparency and make sure you were aware of this adjustment. We will be trying this out next week to evaluate the effectiveness of this relocation.

To make more room for car traffic on N. York, the buses will now be pulling up to the school on the Mildred side.

**Important things to note:**

- **This will not change anything for you**
- This will take effect at Dismissal on **Tuesday, January 15, 2019**
- This **does not** change pick up or drop off locations in your neighborhoods
- Students **will be supervised** by Howard Teachers during both arrival and dismissal
- The transportation department has evaluated the location to ensure student safety
- The bus doors will still be curbside so that students **will not** be required to cross any streets
- Students will be given instructions by their teachers for their line up locations for when they arrive at school on Monday

Again, thank you so much for your willingness to work with us as we continue to strive to improve traffic procedures around the school.
