## “Excuse Me Ma’am, Excuse Me Sir, I’m Amina, an All-American Girl”

Have you ever been asked, "Where are you from?", simply because you look or dress differently? Although Amina was born and raised in America, she is constantly asked the same question because she doesn't look "American".

Being American means being different. So, join Amina on her adventure through different states; highlighting America's beauty and embracing its many scenic features yet remaining ONE United States. Because in the end, like every state is one of a kind, so is every American, including Amina!
